Re: **LEED®** Green Approved

To Whom It May Concern:

At **Universal Building Products**, we combine green technologies and practices with systems construction efficiencies to make sustainable construction chemicals more affordable than ever. As an active member of the *United States Green Building Council* it is our ultimate goal to utilize our technical and scientific research to protect, preserve and restore the health of the global environment, ecosystem and species.

A Commitment to LEED®

Products manufactured by **Universal Building Products** can earn your project points toward LEED® certification. **LEED®** stands for “Leadership in Energy and Environmental Design,” and provides quantitative measures for evaluating a projects performance and meeting sustainability goals.

Sustainable Design

When you need performance, durability, aesthetic appeal, demonstrated product history, energy performance, recyclable attributes and regional proximity – **UBP** will get you there. Consider **UBP** on your next sustainable design.

Improve Indoor Air Quality

Water base technology & low volatile organic compounds (VOCs) plus zero off – gassing toxicity make **UBP** a leader in low emitting materials that work to achieve your design goals.

Increased Recycled Content

Professionally engineered supplementary cementitious materials (SCMs) such as fly ash and slag are recycled industrial by-products. As a recycled content, SCMs are post industry materials that when utilized by **UBP**, reduce the consumption of new materials.

Use Regional Materials (500 mile radius)

LEED®MR Credits 4.1, 4.2 can be used in contributing to a project’s LEED® points.

The following products from Universal Building Products qualify to contribute credit to LEED® for New Construction and Major Renovation Version 2.2 in the following groupings:

- **LEED® EQ Credit 4.1 Low – Emitting Materials: Adhesives & Sealants**
 - *UniBond LV, UniBond MV, UniBond MV Gray, UniBond Gel, UniBond Rapid Gel, UniBond LPL, UniBond Anchoring & UniBinder: UniBond Epoxy Construction Adhesives*
 - *UniJoint Fill CJ & UniPoly Joint: Epoxy & Polyurea Control Joint Fillers*
 - *All UniBond Construction Adhesives sold in side by side cartridges.*

- **LEED® EQ Credit 4.2 Low – Emitting Materials: Paints & Coatings**
 - *Bioform & Bioform WB: Biodegradable Form Release Agents*
 - *UniKote Form Release WB: Form Release Agent*
 - *Maximum Plus, Maximum, Unikote Form Release Agent: Form Release Agents*
 - *DryDeck & Dry Deck WB: Water Based Form Release*
 - *UniTard: Surface Retarder*
 - *UniFilm, UniFilm Concentrate: Evaporation Reducers*
 - *UniGuard: Decorative Epoxy Floor Coating*
 - *UniGuard Plus CR: Chemical Resistant Epoxy Floor Coating*
 - *Kreatseal: Liquid Densifier & Sealer*
 - *Cure Hard, Cure Hard Concentrate: Hardening, Sealing and Dustproofing Compound*
 - *Unolith: Chemical Hardener and Dustproofing*
 - *UniCure & Seal WB – 15-20-30: Water base Cure & Seal*
 - *UniSeal Tuff WB: Water base, non-yellowing, High Gloss Sealer.*
 - *Vital: Waterbase Tilt-up Cure & Conditioning Agent.*
 - *UniBond, UniPrimer, Polybite, Proweld, MicroPrime HD: Bonding Agents & Primers*
 - *Silane Sealer WB & Salt Guard: Water base Sealer*
 - *UniWhite Cure Wax (DOT): Water base White Pigmented Cure*
 - *UniClear Cure Wax (DOT): Water base Clear Cure*
 - *UniResin Cure WB (DOT): Water base Resin Cure*
 - *Super Clean & Tilt: Solvent base bondbreaker*
 - *Super Clean & Tilt WB: Water base bondbreaker*

- **LEED® MR Credit 4.1 Recycled Content (Post Industrial)**

- *UniGrout & UniGrout Super*: Non-Shrink, Non-Metallic Grout
- *UniGrout Super Metallic*: Non – Shrink, Metallic Grout
- *UniRock*: Pourable Anchoring Cement
- *Patch Supreme Plus*: Two Component Repair Mortar
- *UniPatch 5, 20 & UniPatch 5, 20 Lite*: One Component, Polymer Modified, Repair Mortar
- *UniPatch MP*: One Component, Polymer Modified, Repair Mortar
- *UniPatch VO*: Rapid Setting Vertical & Overhead Repair Mortar
- *UniPlug*: Hydraulic cement
- *UniTilt Wall Patch & UniSkim Wall Resurfacer*: One Component Wall Resurfacer
- *UniTop*: Two Component, Polymer Spray Texture System.

*Note: Because all building projects are unique, consult with your **LEED®** - Accredited Professional to determine what **LEED®** points may be achieved with your building.*
